The City's Lodgers.

Some idea of the hard times this year is furnished by the fact that last month 329 vagrants were accommodated with lodgings at the city lockup, while in November, 1892, there were but 131. Last night there were seventeen such lodg-

Six Cases, no Revenue.

Six Cases, no Revenue.

There were six cases in the police court vesterday. Pearl Cavalho went to jail in default of \$5 and costs. Jack Conners went to the hill in default of the same fine. Both these were disorderlies. Pat Shay and James Haley, plain drunks, also went to the hill, and Georgo Holdsclaw and James Smith were let go. Georgo Hor were let go.

Deserted the Second Time.

Word has been received at police headquarters that Robert Claus, the deserter from the United States army who was arrested here and taken to the Columbus barracks by Liout, Terrill, has again deserted. It is suspected that he will return here, but the police will not be apt to arrest him again, as the expenses of the former capture have not yet been paid.

Set His Bed Clothing on Fire.

Constable Sprouts, of Benwood, took Thomas Crosser, a very bad lunatic, down to Moundsville to jail yesterday. He was put up stairs in the jail, and when Deputy Sheriff Keyser went up to see the prisoner he found the cell full of smoke, and discovered that the lunatic had set all his bedding on fire, and had it not been for the deputy going up at that time he would have been sufficated.

The Weather in November.

The Weather in November.

Mr. C. Schnepf, the government weather observer, reports that in the past month there were 15 fair days, 2 clear days, 3 cloudy, while it rained on 9 days and snowed on one. The lowest temperature was 17, on the 26th, and the highest 70 on the 2d. The average temperature was 44, as against 43.4 in the same month last year. The rainfall this year was 1.70 inches, and last year it was 2.45.

Hard for Man and Beast.

The icy streets and sidewalks yesterday made toot travel hard and risky and endangered horses which were not sharp shod, as few of them had yet been. Dozens of horses fell on the streets during the day, and the blacksmiths had a big boom in business on occount of the demand for winter shoes.

The children have the coasting craze as had as ever, and several good tracks

Couldn't See the Hole.

Squire Schultze, of the South Side, wars glasses, as most everybody knows. It was only yesterday, however, that the squire learned that when dark. Yesterday alternoon he was sandpapering the front of his large judicial desk, when he struck a dirty place which hard rubbing with the sandpaper would not obliterate. The squire was nonplussed, especially when he discovered that he had rubbed off about a quarter inch of solid oak, and still the dark spot remained. Getting his glasses he examined the spot closely, and discovered that he had been rubbing—an auger hole.

THE GLASS SUBSCRIPTIONS Still Coming in Er igingly from Day to Day.

The finance committee of the citizens movement to save the flint glass industry to Wheeling is still receiving addi tions to the capital stock, and there is as yet no reason to be discouraged. Yesterday the subscriptions to both ompanies were quite up to the average.
Mr. George Heard, general manager of the Natural Gas Company of West Nirginia, was down from Pittsburgh, and he told the committee that his company felt a deep interest in Wheeling, and so desired the gloss industry to remain prosperaus, and he gave assurance that the company would subscribe to the stock of the glass factories.

PENSIONERS PAID.

A Large Amount of Money Distributed Yesterday was the regular pension day for the six or seven hundred pensioners in Wheeling. Every three months the vouchers arrive from Wash-

ington and after being properly certified to before a notary public are cashed at banks, stores or other places. This time the vouchers came early, most of time the vouchers came early, most of them Sunday. The pensioners on the South Side number at least three hun-dred, and early in the day the office of Squire Joseph A. Arkle was crowded with pensioners, a majority of them be-ing women, all of whom were auxious to get the money due them as soon as pos-sible.

Squire Schultze says that the average Squire Schultze says that the average per month received by each pensioner is \$10, so that on the South Side alone yesterday, there was put into circulation over \$0,000. North of the creek, fully as much was distributed. It will be seen that the money put into circulation by the pensioners every three months foots up no mean sum.
